

On-Demand Email Defense

Your business needs effective, reliable protection from spam, viruses and other email threats. It doesn't need more administrative headaches.

That's why thousands of businesses, state and local governments, and educational institutions choose the award-winning MX Logic Email Defense Service, which offers enterprise-grade service and performance, without enterprise-level complexity and cost.

The MX Logic Email Defense Service works at the network perimeter to identify, quarantine, block and strip suspect email messages before they can enter the messaging infrastructure, based on customer preferences established in the intuitive, easy-to-use MX Control ConsoleSM.

Best In Class Technology

Businesses that rely on the Internet need around-the-clock protection from today's quickly-evolving online threats – from spam and viruses to spyware and fraudulent phishing attacks. Unfortunately, many businesses do not have the IT resources or expertise necessary to manage and maintain effective online security solutions.

- Award-winning service
- Filtering billions of messages a month for over 16,000 customers
- Comprehensive Web and email defense
- Founded by messaging and security pioneers
- State-of-the-art Threat Center provides around-the-clock protection
- Robust and flexible technology platform

Feature-rich package of protection, easy administration

Unlike appliances and enterprise software solutions that require integration, migration and a significant amount of ongoing maintenance; the MX Logic Email Defense Service is effortless and highly effective. Our solution requires no upfront integration, is flexible and easy to administer, and offers rapid activation. The service includes:

- Advanced Spam Blocking
- Virus and Worm Scanning
- Content and Attachment Filtering
- Fraud Protection
- Email Attack Protection
- Outbound Message Filtering
- Sophisticated Quarantine Management
- Around-the-clock Monitoring and Protection
- MX Logic Disaster Recovery Services

On-Demand Email Defense

Choose the right package for your business

The MX Logic Email Defense Service is packaged and priced in three solution bundles.

MX Ultimate AccessSM: Our most comprehensive email security package, MX Ultimate Access offers all of the email defense features found in MX Ultimate Defense and MX Critical Defense, and adds MX Logic Message ContinuitySM, which provides Web-based email access, management and use during outages.

MX Ultimate DefenseSM: This package includes all of the features and benefits found in the MX Critical Defense offering, while also integrating Outbound Message Filtering and the MX Logic[®] Fail Safe Service.

MX Critical DefenseSM: This package provides comprehensive email protection by incorporating Spam Blocking, Virus and Worm Scanning, Fraud Protection, Content and Attachment Filtering, and Email Attack Protection.

The MX Logic Email Defense Service can also be combined with the MX LogicSM Web Defense Service for comprehensive protection against online threats.

In the fight against spam, MX Logic's patent-pending Stacked Classification Framework[®] anti-spam system combines the most effective spam-fighting filters and techniques in the industry.

Spam now accounts for more than 80% of all email traffic.

MX LOGIC[®] THREAT CENTER

93% of organizations have had a virus, worm or Trojan Horse successfully infiltrate their network through email.
